Benefits

Price Change

Near-instantaneous price changes enable shops to execute pricing strategies with greater simplicity

Self-serve

Increase the interaction between products and customers so that customers can read the product information and purchase by themselves

Shelf Maintenance

Saves the time and labor costs in updating and replacing paper labels on shelves, optimizing the maintenance of the shelves

In-store Marketing

Allows brands to engage and convert customers by dynamic price and image automation on the labels

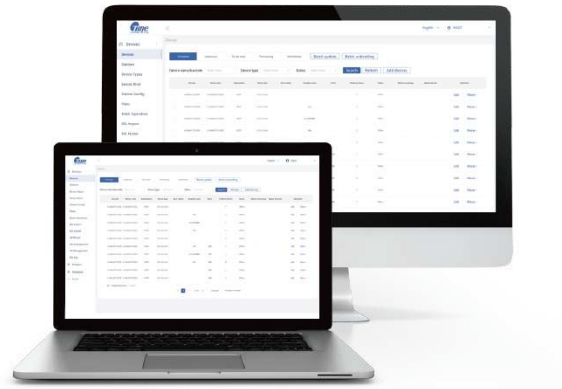

Improve Showrooming

Help retailers follow the online prices and then quickly make any adjustments in their stores, which may be the most surprising and innovative aspect of the shopping experience

Environment

Significantly save paper and plastic after applying ESL to the shelves, reducing the environmental footprint of merchants

ESL System Solution

PC Desktop

We provide genuine international ESL software for many customers, trustworthy and affordable, multilingual and for many applications.

Mobile Terminal

Our system can be applied with different hardware. It is so easy, versatile and intuitive.

01

Easy to install and maintain, obtainable through our network of certified business partners

02

Small and medium-size customers can finally enjoy what only large corporations could afford up to now

03

More nice features tailor made for retail and other industries

04

Software available in multiple languages

05

Compatible and useable for strip LCD and other types of Digital Signage

06

Cloud-based is an option (European based) but also provided on a local server (at the customer site or business partner's site)

Easy and intuitive

The mobile version operation is very simple to use, no redundant interface. Users can find the most commonly used functions on the home page.

Available to install on multiple hardwares

Our APP can be installed and used on many different mobile devices and runs smoothly

High-level automation

In addition to many powerful functions, we are continuously improving software performance and turning it into a highly automated application

A Label

About

All ESL labels are suitable to be deployed in any client environment. The unique design features the screen with a viewing angle to the utmost, and the display content is still clearly visible under strong light conditions.

In addition, replaceable batteries and shell customization are also the value points we provide to our customers.

The multicolor labels Four (4) colors

We are proud to offer advanced software that allows our 6-color ESL to display up to 12 different colors through the use of innovative algorithms. This technology enables us to better accommodate a wide range of template designs and produce more vivid and dynamic advertising displays. With our cutting-edge software, our clients can enjoy a higher level of customization and creativity in their marketing efforts.

Up to 12 colors!

Accessories

We create a complete offer of accessories to well adapt the labels to different favorites. With considerable experience, we keep adding values to the designs, and dedicate to extend ESL system to a great number of possibilities. And our goal is to optimize store environment with enhanced customer experience.

About

We have the accessory you need for your ESL application:

- 1 Plug and play, super easy to install and use, and work perfectly with different sized labels
2. AES 128-bit cipher highly secures the safety of business data and store assets
3. Build up a more intelligent ESL network with incredible automation of label loading, data balancing, and best AP

Our access points help distinguish our ESL from the others. It can be installed almost anywhere in an indoor environment, creating a perfect local network for the labels. With the advanced wireless communication technology, our AP has achieved proven successes in the markets.

Advantage

- Fastest speed**
- High security**
- Easy installation**
- More intelligent**

PDA

OR2515

This is an Android-based mobile computer, delivers unprecedented excellence. It features powerful processor, stable wireless connectivity, NFC and 1D/2D barcode scanning, iris recognition functions. This rugged device can be deployed in industries like express delivery, logistics, warehousing, manufacturing and so forth. It greatly help coworker to finish on-site task with ESL.

Technical Details

CPU	Cortex-A53 2.5 / 2.3 GHz Octa-core
RAM+ROM	3GB+32GB / 4GB+64GB
Expansion	supports up to 128 GB Micro SD card
Sealing	IP65/IP67 per IEC sealing specifications
Expansion Slot	1 slot for Nano SIM card, 1 slot for Nano SIM or TF card
WLAN	EEE802.11 a/b/g/n/ac,2.4G/5G dual-band, internal antenna
Display	5.2 "IPS LTPS 1920x1080
Main battery	Li-ion, rechargeable, 4000mAh

How To Use

1. Add an AP to the system
2. Create templates and products in the system
3. Use PDA to bind price tags to products

Charging Cradle

The charging cradle can charge one PDA, using DC-BK-Type C cable. Charging cradle(general configuration),charge one device, use with DC-BK-TypeC cable

Attachment

Rail

About & Usage

Various rails to work with different types of racking or shelves
Good quality and long use life

SR6143	Length 1,000mm	
SR6144	Length 1,000mm	
SR6147	Length 1,000mm	

Clip

About & Usage

A rail-like clip to mount on the shelf

Other Models

Model	Description	Picture
SR6142	Length 1,000mm	
SR6145	Length 1,000mm	
SR6146	Clip	
SR6148	Clip (for shelf of 1-2.2mm thickness)	

Stand

About & Usage

A table stand, used to place the label on flat surfaces

Application Scenarios

Small stand with angle adjustment function, adaptive to display showing benefits on a good location

Other Models

Model	Description	Picture
SR6100-1	Small stand	
SR6101	Stand for 4.2 inch ESL	
SR6108	Stretched stand	
SR6135	Stand for 5.8 inch and 7.5 inch ESL	
SR6140	Small stand	

Hook Clip

About & Usage

T-peg clip, attach ESL to T-type metal bar on the racking

Other Models

Model	Description	Picture
SR6106-1	Peg hook	
SR6106-2	Peg hook	
SR6106-3	Peg hook	

Hook Clip

SR6104

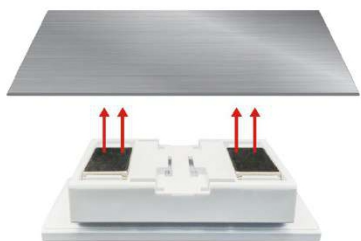

43*41*40mm Clip (for shelf of 12-25mm thickness)

About & Usage

Angle-adjustable shelf clip view angle, able to attach on different shelves

Model	Description	picture
SR6105	43*41*26mm Clip (for shelf of 3-10mm thickness)	

Function Clips

SR6151

Magnetic holder

About & Usage

The clip matches with all the small size ESL, equipped with magnets attaching the labels to metal surface

Other Models

Model	Description	Picture
SR6150	Holder mount on wall	

Others

SR6118

Articulated Clamp

Clamp with 9 or 11 mm slot

Usage

Mainly used for fruit, fresh meat and vegetables

We Work Better With Labels

SR6102

Alimentary, mainly used for sea food, fresh meat, and vegetables

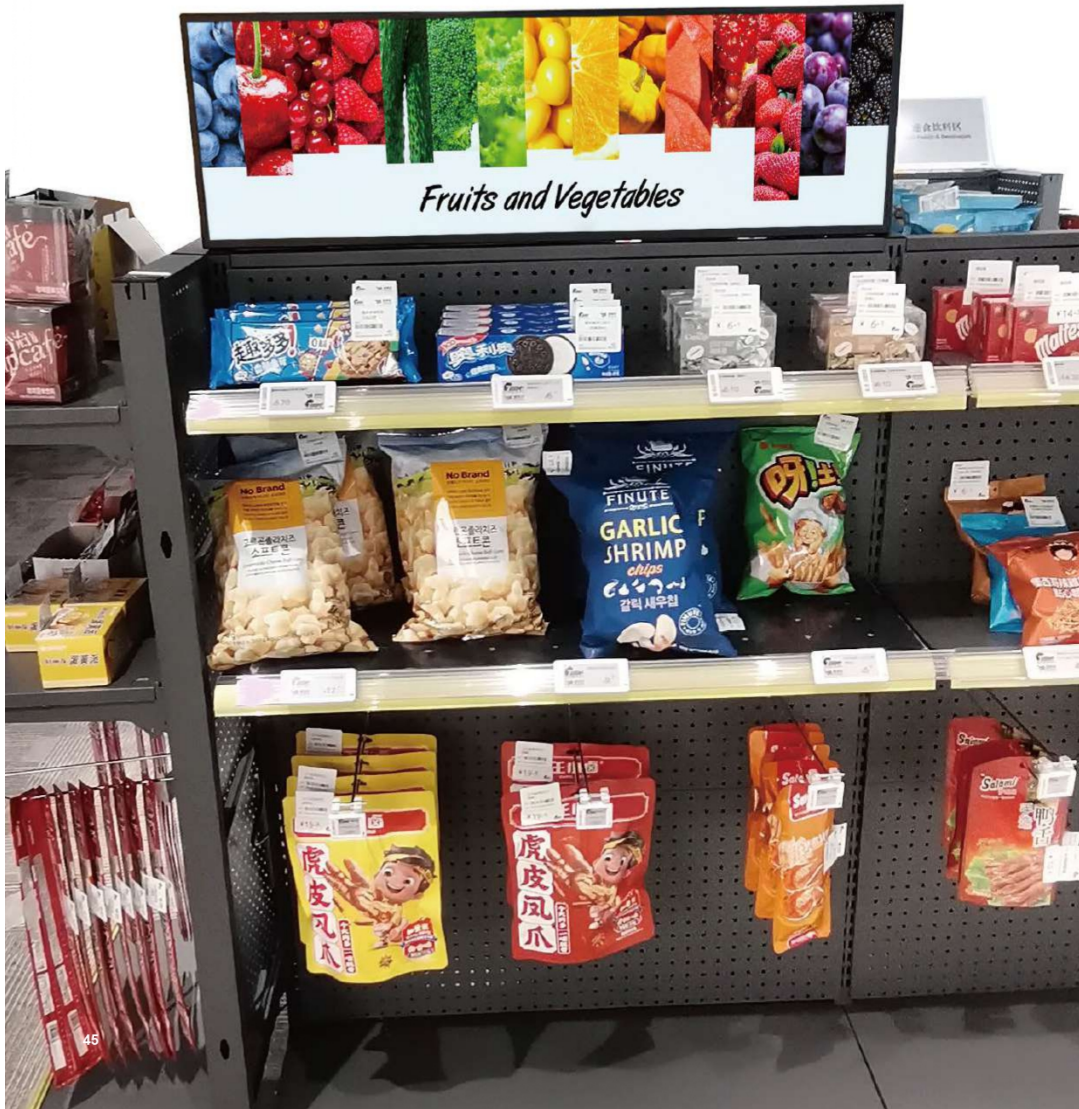

SR6138

The hanging bar attaching to 7.5 inch ESL for the labeling on bars

Model	Description	Picture
SR6114	Angle adjuster	
SR6112	Rail end	
SR6121	Tool (Detacher - Battery case opener)	
SR6141	Shelf talker	

A commercial display with a stretched screen to best match shelves. It is widely used in places where there is high potential to advertise merchandise on shelves. It creates an ultra-wide view to formulate a big variety of product presentations.

Warehouse and Logistics

ESL brings synchronized information to a lot of locations of warehouse and logistics: associate with a variety of automation equipment, synchronized with the background system information, real-time update of goods in and out of the warehouse, picking requirements and other information, and indicating the goods and quantities that should be picked. Warehouse coworker can operate in an efficient and reasonable route in an orderly manner according to the correspondence, to effectively reduce the picking error rate, speed up the picking speed, improve the work efficiency, and realize the flexibility.

Retail

ESL is on fast growth in today's retail and is expected to be one of the most successful technologies for chain store business. Our ESL labels working with a cloud or local server system have an ultra-low power consumption giving clear visibility at the shelf edge, enabling product identification in real-time, and enhanced promos with time automation. For retailers such as super markets, ESL bring competitive advantages, drive margins and push out costs while building customer trust.

We offer an ESL solution that distinguishes workspace with technological and environmentally friendly infrastructure. It significantly simplifies the working process at the office, and guide and support staff on operational tasks. Apart from that, we are developing many extra features that contribute more benefits to an organization.

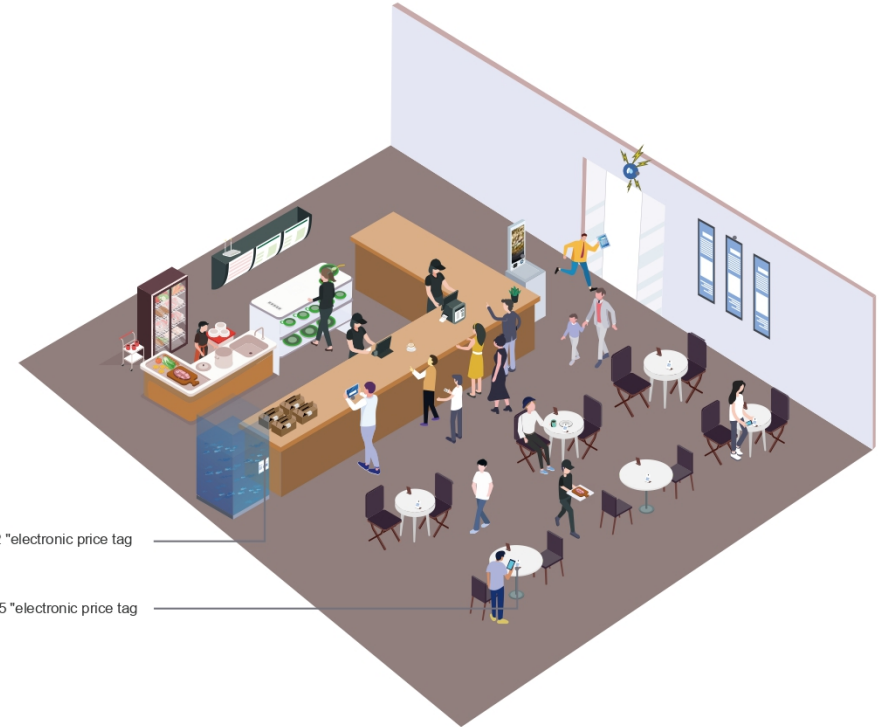

Medical Service

Electronic shelf labels help digitalize labeling environments in hospitals. Different from other digital signages, ESL facilitates space with a joyful and visually pleasing experience. All the information about patient, staff, or items are updated from a server to labels attached to various facilitates in a contactless and hygienic process. With the development of ESL system, we see a huge potentiality to integrate ESL platform with hospital room booking and patient management system.

Restaurant

The electronic ink display describes food and drink as excellent as printed papers. Showing almost all the ingredients of dishes, ESL can save a lot of resources and working hours on editing, printing, and replacing paper sheets. Moreover, large-screen ESL can also play as a digital food menu, to show all the available choices and promote best sellers instantly. Now, we already have some pilot locations in Europe. After using our ESL system, the number of visitors has increased a lot, and at the same time, the operating cost has continually reduced.
